Unless there is an entry in the above table that indicates that provider forms are to be completed, the AACMA lists are accepted as evidence of eligibility for provider registration in the relevant modalities. This includes all the ARHG health funds. A patient must be on a table with coverage for the recognised modalities and be within the limits payable before benefits will be paid.

Most health funds will rebate for TCMRM under a Remedial Massage (M) or Remedial Therapies (R) benefit. Please check the fund item/cover when receipting.
